Harvest Stew

DAVID D. JONES ELEMENTARY SCHOOL

Greensboro, North Carolina

Our Story

When the recipe challenge team came together to work on this recipe challenge project, they had no idea what they had gotten themselves into. Their first task was figuring out how to organize a tasting event because their school had over 750 students. The team then began experimenting with different ingredients and recipes and held small taste testing sessions to gather feedback and make improvements. All of their hard work led to the development of Harvest Stew.

This flavorful dish was created to satisfy the palate of students, teachers, and staff while being a filling, nutritious meal to fuel them for the rest of their day. Initially when the Harvest Stew recipe was created, it was prepared with kale. However, spinach was substituted because it was more readily available for the school district.

Over 600 students sampled the recipe during their lunch period. Parents of students were also encouraged to attend the tasting with their children. Parents, students, and teachers were enthusiastic about the new recipe and overwhelmingly enjoyed the dish, with 70 percent of the students approving of the recipe. The school is proud that North Carolina sweet potatoes from their *Farm to School* program were featured in this stew.

Special tip for preparing dry beans:

SOAKING BEANS

OVERNIGHT METHOD: Add 1 ¾ qt cold water to every 1 lb of dry beans. Cover and refrigerate overnight. Discard the water. Proceed with recipe.

QUICK-SOAK METHOD: Boil 1 ¾ qt of water for each 1 lb of dry beans. Add beans and boil for 2 minutes. Remove from heat and allow to soak for 1 hour. Discard the water. Proceed with recipe.

COOKING BEANS

Once the beans have been soaked, add 1 ¾ qt water for every lb of dry beans. Boil gently with lid tilted until tender, about 2 hours.

Use hot beans immediately.

Critical Control Point: Hold for hot service at 135 °F or higher.

OR

Chill for later use.

Critical Control Point: Cool to 70 °F within 2 hours and to 40 °F or lower within an additional 4 hours.

1 lb dry great northern beans = about 2 ½ cups dry or 6 ¾ cups cooked beans.
